

3ohp **Embedded OS for Deep Learning Edge Computing**

I am pursuing my Master's studies in Computer Science at Uppsala University and I am writing to express my interest in the 3ohp - Embedded OS for Deep Learning Edge Computing thesis. I am applying along with my fellow graduate student Deepak Venkataram.

I am passionate about building systems and currently focus on Embedded Systems and Low Level programming in my Masters. I believe I am suited to tackle the stated scope of the aforementioned thesis.

Thank you for your consideration,

Prasanth Thomas Shaji
